Ready-to-Use

Protects ANY indoor, outdoor, automotive, marine surface!

All-Pro Wax & Polish is an eco-safe, high performing, solvent-free, wax/polish and cleaner for a variety of surfaces including, stainless steel, aluminum, chrome, fiberglass, laminate, vinyl, plastic, painted surfaces, wood and ANY other surface. Cleans, polishes and protects. Leaves a long-lasting, lustrous and protective coating on ANY surface to prevent deterioration. Helps to repel water, liquids, and the damaging effects of the environment. Excellent water repellency on windows and windshields. Contains no harmful solvents or abrasives.

Use on ANY indoor, outdoor, automotive, RV and marine surface. Outperforms most automotive, marine and household waxes and polishes. Superior protection on furniture (indoor and outdoor), vehicles, boats, etc., leaving a finish that will not break down from impacts of the environment (i.e., sunlight, acid rain, salt spray, etc.). Use on ANY vehicle/marine surfaces – interior, exterior, dashboards, rubber, leather, vinyl, wood, plastic, etc. **DO NOT USE ON FABRICS.**

#### **DIRECTIONS:**

Dispense into spray bottle if desired, and spray small amount directly onto surface to be protected, or dispense small amount into clean, dry, lint-free cloth.

Spread onto and buff surface to be treated with clean, dry, lint-free cloth doing one area at a time.

Rebuff with second clean, dry, lint-free cloth if desired – especially on glass and chrome to remove any streaking.

For best results, use micro-fiber cloths for all application and buffing.

#### **CAUTIONS:**

Keep out of reach of children.
